

Why Is Kevin Fong Smiling?

- A. He's a second generation entrepreneur with two degrees from Stanford and one from UC Berkeley
- B. He spends 50% of his time satisfying his thirst for life-long learning with his portfolio companies
- C. He founded Silicon Valley Social Ventures and addressed the first White House Conference on Philanthropy
- D. He holds a Cessna Citation 2 pilot's license
- E. He's a member of NVCA**

They're all good answers. But NVCA brings Kevin further inside the venture capital industry than ever. Representing his views on Capitol Hill. Generating unparalleled research on his industry. And providing him with education resources and exclusive networking opportunities.

It's good to be Kevin Fong.
It's even better with NVCA.

Kevin Fong, Managing Partner at Mayfield, leads the partnership and the communications group, whose focus is broadband communications equipment and services.

Advocacy. Research. Education. Networking. Come Inside.
